Desarrollo Regional
"Una manera de hacer Europa"

PROGRAM 22/01/2016

08:30–09:00
REGISTRATION

09:00–09:05
WELCOME AND PRESENTATION OF
THE SYMPOSIUM
[Alfredo Adan](#)

09:05–10:45

09:05–09:17
The role of glial cells in inflammation
[Elena Vecino](#)

09:17–09:29
Cytokine and chemokine tear levels in
patients with uveitis
[José M Herreras](#)

09:29–09:41
B lymphocytes and autoantibodies in
autoimmune retinopathy and uveitis
[Jose M García Ruiz de Morales](#)

09:41–09:53
In vitro effects of interleukin-6 on a
model of blood-retinal barrier
[Marina Mesquida](#)

09:53–10:05
Psoriasis and uveitis: an autoimmune
disease or something else?
[Nicolas Alejandre](#)

10:05–10:25

CD8+ T cells in uveitis
[Richard Lee](#)

10:25–10:45
DISCUSSION

10:45–11:30
COFFEE BREAK

11:30–13:10

11:30–11:42
Biological treatments and Sjögren's
Syndrome
[Ana Boto](#)

11:42–11:54
Tear inflammation markers in
Keratoconus and modification after
corneal cross-linking
[Juan Duran de la Colina](#)

11:54–12:06
Cell therapy in ocular surface.
[Margarita Calonge](#)

12:06–12:18
Diagnostic tool in infectious keratitis
[Ana Boto](#)

12:18–12:30
Anti IL-6 Receptor antibody (TOCILIZU-
MAB) influence on inflammatory inter-
leukins levels in peripheral blood mono-
nuclear cells cultures of patients with
active thyroid disease: an in vitro study
[Ania Leszczynska](#)

12:30–12:42
Antibodies in optic neuritis
[Bernat Sánchez-Dalmau](#)

12:42–12:54
Dynamics of retinal injury after acute
optic neuritis
[Iñigo Gabilondo](#)

12:54–13:06
The impact of new methods of imaging
in scleral inflammation
[Maite Sainz de la Maza](#)

13:06–13:30
DISCUSSION

13:30–15:00
LUNCH

15:00–17:30

15:00–15:30
Therapeutical protocol for ocular
pemphigoid: a consensus panel
[David Diaz-Valle](#)

15:30–15:50

**Steroid refractory ocular
inflammation**
[Richard Lee](#)

15:50–16:02
Dexamethasone effect on retinal cells
exposed to high levels of glucose
[Elena Vecino](#)

16:02–16:14
Effect of Somatostatin on the perme-
ability of outer blood retinal barrier
[Alex Fonollosa](#)

16:14–16:26
Complement factor H binding of
monomeric C-reactive protein and the
progression of AMD
[Blanca Molins](#)

16:26–16:38
Effect of EPA and DHA formulations
under inflammatory and oxidative stress
conditions in ARPE-19 and RF6A cells
[Patricia Fernandez Robredo,](#)
[Sergio Recalde](#)

16:38–16:50
Topical treatment with PEDF active
fractions in a mouse model of
choroidal neovascularization
[Miguel Ángel Zapata](#)

16:50–17:10
DISCUSSION

17:10–17:30
CONCLUDING REMARKS;
SEIO'S THINK TANK ON RESEARCH
[Alex Fonollosa](#)
