

Nombre	Apellidos	Hospital	Ciudad	Cargo	Formato (CO/Poster)	Título abstracts
Martí	Aguilar i Coll	Hospital Universitari de Bellvitge	Barcelona	Residente	P	Primary Lung Involvement in Early Rheumatoid Arthritis//Validation Study in Early Rheumatoid Arthritis Patients of the Spanish Society of Rheumatology (SER)/Spanish Society of Pulmonology and Thoracic Surgery (SEPAR)Screening Criteria for Interstitial Lung Disease
Gloria	Albaladejo Paredes	Hospital Universitario Santa Lucía de Cartagena	Cartagena	Reumatólogo	P	Anti-TNF Therapy as a potential risk of leishmania infections
Vicente	Aldasoro Cáceres	Hospital Universitario de Navarra	Pamplona	Reumatólogo	CO	Diagnosis of giant cell arteritis by 18F-FDG PET/CT in patients on glucocorticoid therapy: importance of delayed imaging
Helena María	Amar Muñoz	Hospital General Universitario Gregorio Marañón	Madrid	Residente	P	Different giant cell arteritis phenotypes may present distinct types of ischemic complications
Nuria	Barroso García	Hospital Universitario Regional de Malaga	Málaga	Reumatólogo	P	JAK inhibitor therapy in refractory uveitis due to immune-mediated inflammatory disorders. Multicenter study and literature review
Joao Carlos	Batista Liz	Hospital Universitario Marqués de Valdecilla	Santander	Investigador	P	C5 Signaling Pathway Genes as Key Drivers of the Pathogenesis of IgA Vasculitis?
Fabricio	Benavides Villanueva	Hospital Universitario Marqués de Valdecilla	Santander	Residente	P	Incidence of ANCA-Associated Vasculitis in a Northern Spanish Health Region Between 2000-2023: A Population-based Study // Mortality in Anti-neutrophil Cytoplasmic Antibody-Associated Vasculitis: Study from a Single University Hospital
Camile	Bourgeois	Hospital General Universitario Gregorio Marañón	Madrid	Residente	P	Radioisotopic Synoviorrhesis: Factors Associated with Good Response Evaluated by Ultrasound
Irene	Carrión Barberá	Hospital del Mar	Barcelona	Reumatólogo	P	(3) Ambispective, Multicenter Registry of Treatment with Anifrolumab in Real Life in Patients with Systemic Lupus Erythematosus from Spanish Rheumatology Departments (ANIFRO-Reu): Efficacy, Safety and Patient's Characteristics // Overt Polyautoimmunity and Its Risk Factors in a Multicenter Cohort of Systemic Sclerosis Patients
Elisabeth	Castañeda Estévez	Hospital Universitario Infanta Sofía	Madrid	Residente	P	Impact in clinical practice of the European Medicines Agency health alert about the restriction of the use of JAK inhibitors
Cristina	Corrales Selaya	Hospital Universitario Marqués de Valdecilla	Santander	Residente	P	Early diagnosis of rheumatoid arthritis: role of joint ultrasound assessment.
Santiago	Dans Caballero	Hospital Universitario Reina Sofía	Córdoba	Residente	P	Clustering Algorithm as an Exploratory Analysis of Different Clinical Phenotypes in Systemic Sclerosis. Data from the PRECISESADS Study
Delia	Fernández Lozano	Hospital Clínico Universitario de Valencia	Valencia	Reumatólogo	P	Sex differences in phenotypes and imaging examination in Giant Cell Arteritis: data from the ARTESER registry
Iván	Ferraz Amaro	Hospital Universitario de Canarias	Santa Cruz de Tenerife	Reumatólogo	P	Complete Description of the Three Pathways of the Complement System in a Series of 430 Patients with Rheumatoid Arthritis
Asier	García Alija	Hospital Universitario Santa Creu i Sant Pau	Barcelona	Residente	P	Disease Duration, Age and Clinical Features Related to Aortic Valve Sclerosis in Patients with Spondyloarthritis
Antía	García Fernández	Hospital Universitario Fundación Jimenez Díaz	Madrid	Reumatólogo	P	Use of bDMARDs During Pregnancy After Preconceptional Counseling in Spanish Patients with Rheumatic Diseases
María	García González	Hospital Universitario de Canarias	Santa Cruz de Tenerife	Reumatólogo	P	Relationship between the Complement System and Serum Lipid Profile in Patients with Rheumatoid Arthritis
Doryan José	García Olivas	Complejo Hospitalario Insular Materno Infantil	Las Palmas	Residente	P	Severe Infection in COVID-19 Vaccinated patients with Systemic Autoimmune Rheumatic Diseases on B cell targeted therapies: association with neutrophil-lymphocyte ratio
Aimara	García Studer	Hospital Regional Universitario de Málaga	Málaga	Residente	P	Analysis of Body Composition in Patients with Moderate-Severe Rheumatoid Arthritis Treated with Anti-TNF Drugs
Carmen	Gómez Vaquero	Hospital Universitari de Bellvitge	Barcelona	Reumatólogo	P	Analysis of the Evolution of Bone Mineral Density in the Spanish Population: Results of the OsteoSER Study
Elena	Grau García	Hospital Universitario y Politécnico la Fe	Valencia	Biologa	P	Pro-inflammatory cytokine levels and their influence on clinical activity in rheumatoid arthritis
Marta	Hernández Díaz	Hospital Universitario de Canarias	Santa Cruz de Tenerife	Reumatólogo	P	Tocilizumab Effect on the Three Pathways of the Complement System in Patients with Rheumatoid Arthritis
Sonia	Jiménez Barrios	Hospital Universitario Ramón y Cajal	Madrid	Residente	P	Sjögren's Syndrome and Interstitial Lung Disease: Experience in a Collaborative Rheumatology-Pulmonology Clinic
Carmen	Lasa Teja	Hospital Universitario Marqués de Valdecilla	Santander	Residente	P	(3) Long-term Follow-up of Patients with Positive Cryofibrinogen Test During the COVID-19 Era // Effects of JAK Inhibitors on Subsets of the Innate Immune System // Tocilizumab in Extracranial Large-Vessel Giant Cell Arteritis and Takayasu Arteritis: A Multicentric Observational Comparative Study
José Manuel	Lisbona Montañez	Hospital Regional Universitario de Málaga	Málaga	Investigador	P	Association Between Gut Microbiota, Inflammation, and Epigenetics in Rheumatoid Arthritis Patients
Jesús	Loarce Martos	Hospital Universitario Ramón y Cajal	Madrid	Reumatólogo	CO	Lung Ultrasound in Rheumatoid Arthritis and Systemic Sclerosis: Accuracy of B-line and Pleural Assessment
Fernando	López Gutiérrez	Hospital Universitario Marqués de Valdecilla	Santander	Reumatólogo	P	Effectiveness of Rituximab in IgG4 Related Disease

Chary	López Pedrera	Instituto Maimónides de Investigación Biomédica (IMIBIC)	Córdoba	Investigador	P	(2) Clinical Efficacy and Molecular Cardiovascular Changes of Baricitinib in Biologic-naïve Patients with Rheumatoid Arthritis. Direct Comparative Analysis with TNFiInhibitors and Conventional DMARDs
Lourdes	Martín de la Sierra López	Hospital General Universitario de Ciudad Real	Ciudad Real	Residente	P	Uveitis in Axial Spondyloarthritis: Study of 309 Patients in a Single University Center
Adrián	Martín Gutiérrez	Hospital Universitario Marqués de Valdecilla	Santander	Residente	CO+P	(5) CO: Effectiveness of Tocilizumab in Aortitis and Aneurysms Associated with Giant Cell Arteritis. Multicenter Open-label Study // Factors Associated with Relapse in Giant Cell Arteritis Treated with Tocilizumab. Multicenter Open-label Study of 407 Patients // Tocilizumab in Monotherapy vs. Combined in Aortitis Associated with Giant Cell Arteritis. Multicenter Open-label Study of 196 Patients // Cerebrovascular Accidents (CVA) in Giant Cell Arteritis: Identification of Predictive Factors from the ARTESER Registry // Clinical Features and Treatment of Retroperitoneal Fibrosis in a Referral Hospital and Literature Review
Pablo	Martínez Calabuig	Hospital General Universitario de Valencia	Valencia	Residente	P	(2) Association of anti-CarP levels with clinical activity and serological profile in rheumatoid arthritis // Serological Elevation of IgG4: Clinical Correlation and Differential Diagnosis
Laura	Más Sánchez	Hospital Universitario y Politécnico la Fe	Valencia	Residente	P	Musculoskeletal manifestations in patients diagnosed with marfan syndrome
Pol	Maymó Paituví	Hospital Universitari de Bellvitge	Barcelona	Residente	P	Hypersensitivity Pneumonitis with Autoimmune Features: A New Entity?
Belen	Miguel Ibañez	Complejo Asistencial Universitario de Salamanca	Salamanca	Residente	P	(2) Impact of Hip Fractures in the Elderly Population: Functional Status, Readmission, and One-Year Mortality // Primary and Secondary Prevention of Osteoporotic Fracture in the Elderly Patients
Juan	Molina Collada	Hospital General Universitario Gregorio Marañón	Madrid	Reumatólogo	P	Mortality in patients with giant cell arteritis in Spain: results from the ARTESER registry
Pablo	Moreno Fresneda	Hospital Universitario Clínico San Carlos	Madrid	Reumatólogo	P	Progressive Fibrosing Interstitial Lung Disease of Autoimmune Origin and Antifibrotic Medication: NEREA Registry
Rosa M ^a	Morlá Novell	Hospital Universitari Clínic de Barcelona	Barcelona	Reumatólogo	P	Residual' fatigue and its severity in patients with rheumatoid arthritis in clinical strict remission: prevalence and associated factors
Arkaitz	Mucientes Ruiz	Hospital Regional Universitario de Málaga	Málaga	Investigador	P	Impact of Tight Junction Proteins on Inflammatory Processes and Microbial Imbalance in Rheumatoid Arthritis
Pablo	Muñoz Martínez	Hospital Universitario y Politécnico la Fe	Valencia	Residente	P	Giant Cell Arteritis-Polymyalgia Rheumatica Spectrum Disease: relation with neoplasms and role as a paraneoplastic syndrome
Esperanza	Naredo Sánchez	Hospital Universitario Fundación Jimenez Díaz	Madrid	Reumatólogo	CO	A 3-arm, randomized, open-label, parallel active controlled, multicentre international study to compare the response of ultrasound-assessed synovitis to baricitinib, alone and combined with methotrexate versus etanercept in rheumatoid arthritis patients
Maryia	Nikitsina	Hospital Universitario de La Princesa	Madrid	Residente	P	Differences in pharmacological prescription to patients with recent-onset arthritis: analysis from the gender perspective
Otto Martín	Olivas Vergara	Hospital Universitario Fundación Jimenez Díaz	Madrid	Reumatólogo	P	Ultrasound-assessed dactylitis as a biomarker in the early diagnosis of psoriatic arthritis
Inés	Pérez Sancristóbal	Hospital Universitario Clínico San Carlos	Madrid	Reumatólogo	P	Analysis of Rheumatic Patients' Self – Reported Symptoms in Free Written Text Using Natural Language Processing
Nahia	Plaza Aulestia	Hospital Universitario de Galdakao	Vizcaya	Reumatólogo	P	Prevalence and Risk Factors of Metabolic Dysfunction-associated Steatotic Liver Disease
M ^a Ángeles	Puche Larrubia	Hospital Universitario Reina Sofía	Córdoba	Reumatólogo	P	Clinical Expression of Radiographic Axial Spondyloarthritis and Its Association with HLA-B27 in European and Ibero-American Populations: Data from the REGISPONER and RESPONDIA Registries
Verónica	Pulito Cueto	Hospital Universitario Marqués de Valdecilla	Santander	Investigador	P	(3) New Approach for Early and Accurate Diagnosis of Rheumatoid Arthritis-related Interstitial Lung Disease: Matrix Metalloproteinases 7 and 9 as Novel Blood Biomarkers // The Methylome Profile of B-cells as a Biomarker of Nephritis in IgA Vasculitis // PDGFA and TGFB1, Key Genes to Discriminate Autoimmune Diseases-Related Interstitial Lung Disease from Idiopathic Pulmonary Fibrosis?
Adrián	Quevedo Rodríguez	Hospital Universitario de Gran Canaria Dr. Negrín	Las Palmas	Reumatólogo	P	(2) Evaluation of the Survival and Safety of Biologic and Targeted Synthetic DMARD in Patients with Difficult-to-Treat RA Using Real-World Data from a Nationwide Registry of Rheumatic Diseases // Relationship Between the Complement System and Subclinical Carotid Atherosclerosis in Patients with Rheumatoid Arthritis
Daniel	Ramos Castro	Hospital Universitario y Politécnico la Fe	Valencia	Residente	P	Study of bones metabolism in patients diagnosed with osteogenesis imperfecta
Carmen	Raya Santos	Hospital de la Marina Baixa	Alicante	Residente	P	(2) Diagnostic Performance of Mayor Salivary Gland Ultrasound for Diagnosis of Sjögren's Syndrome in Routine Clinical Practice // Impact of Hydroxychloroquine Level on ECG QTc Interval in Patients with Rheumatic Systemic Autoimmune Diseases: A Real-life Study
Ignacio	Rego Pérez	Complejo Hospitalario Universitario de A Coruña	A Coruña	Investigador	P	A Model Based on Clinical and Molecular Data Predicts the Risk of Total JointReplacement Progression in Knee OA Patients from the OAI

Miriam	Retuerto Guerrero	Complejo Asistencial Universitario de León	León	Reumatólogo	P	(4) Evaluation of the New Criteria for Progressive Pulmonary Fibrosis in Patients with Systemic Sclerosis // Elderly Systemic Sclerosis. Clinical Presentation and Outcome // Behind the Bronchiectasis in Systemic Sclerosis. Prevalence and Risk Factors // Stratification of Cancer Risk in Idiopathic Inflammatory Myopathies. Application of the IMACS Guidelines to Enhance Screening
Cristina	Rodríguez Alvear	Hospital General Universitario Dr. Balmis	Alicante	Residente	P	Prospective Evaluation of Carotid Atherosclerosis, Urate Deposits and Inflammation After One Year of Treatment in Newly Diagnosed Gout
María	Rodríguez Laguna	Hospital Universitario Clínico San Carlos	Madrid	Residente	P	Role of Fatigue in Difficult to Treat Rheumatoid Arthritis
Olga	Rusinovich Lovgach	Hospital Universitario Puerta de Hierro Majadahonda	Madrid	Reumatólogo	P	(2) Ultrasound-Guided Corticosteroid Injection versus Iontophoresis in Rhizarthrosis: A Prospective Comparative Multicentric Study // Mortality and Its Predictor Variables in Patients with Sjögren Disease: Data from SjögrenSER-Pros Prospective Registry //
Marina	Sánchez Lucas	Hospital General Universitario Gregorio Marañón	Madrid	Residente	P	Impact of a Multidisciplinary Rheumatology-Dermatology-Gastroenterology Center in the Management of Patients with Psoriatic Arthritis: Analysis of the First 5-years of Implementation
Ismael	Sánchez Pareja	Instituto Maimónides de Investigación Biomédica (IMIBIC)	Córdoba	Investigador	P	Uncovering Common and Distinctive Molecular Profiles Between Early and Established Rheumatoid Arthritis Through Integrative Multi-omics Analysis and Its Association with Disease Status and Clinical Response
Carmen	Secada Gómez	Hospital Universitario Marqués de Valdecilla	Santander	Residente	P	(3) Treatment and Evolution in 134 Patients with Aortitis and Periaortitis. Experience of a Single Referral Centre // Anifrolumab in Systemic Lupus Erythematosus. Spanish National Registry in a Real-world Setting // Clinical Characterization of Aortitis and Periaortitis in a Cohort of 134 Patients from a Single University Center. A Model-based Cluster Analysis
Ana	Serrano Combarro	Hospital Universitario Marqués de Valdecilla	Santander	Residente	P	(4) Window of Opportunity in the Treatment of Rheumatoid Arthritis - Interstitial Lung Disease with Abatacept. National Multicenter Study of 526 Patients // Baricitinib in Rheumatoid Arthritis - Interstitial Lung Disease. National Multicenter Study of 72 Patients // Rheumatoid Arthritis - Progressive Interstitial Lung Disease with Abatacept: Data from a Large National Multicenter Cohort // Upadacitinib and Other JAK Inhibitors in the Treatment of Rheumatoid Arthritis - Interstitial Lung Disease. National Multicenter Study Clinical Practice.
Cristiana	Sieiro Santos	Complejo Asistencial Universitario de León	León	Reumatólogo	P	(4) Immune responses to Herpes Zoster Vaccine Responses in Rheumatic Patients on JAK Inhibitors: insights in humoral and cellular response // KL-6 and IL-18 biomarkers in systemic sclerosis-associated interstitial lung disease: enhancing prognostic insights into early detection, progression, lung volume changes, and mortality risk // Autoantibody and Radiological Profiles as Prognostic Indicators in Idiopathic Inflammatory Myopathies: Insights into Mortality and Interstitial Lung Disease Development // The role of Inflammation in Systemic Sclerosis: CRP-Associated Phenotypes and Prognostic Implications
Carlos	Valera Ribera	Hospital Universitario Dr. Peset	Valencia	Residente	P	Use of Nailfold Capillaroscopy as a Predictor of Cardiovascular Events and Mortality in Systemic Sclerosis
Cristina	Valero Martínez	Hospital Universitario de La Princesa	Madrid	Reumatólogo	P	Characteristics of a cohort of patients with interstitial lung disease and ANCA positivity in a university hospital
Paola	Vidal Montal	Hospital Universitari de Bellvitge	Barcelona	Reumatólogo	CO	(2) CO: Can Immunosuppressive Therapy Be Safely Discontinued in Patients with Lupus Nephritis? // Arterial Involvement Distribution on 18FFDG PET-CT in Giant Cell Arteritis: Variances Based on Clinical Phenotype
José María	Viotti Serra	Hospital Universitario de Canarias	Santa Cruz de Tenerife	Reumatólogo	P	Understanding the Role of the Complement System in Insulin Resistance and Metabolic Syndrome in Patients with Rheumatoid Arthritis
